Package com.sun.btrace

Interface	Summary
-----------	---------

Interface	Description 表示"任何引用类型[对象或数组]"都允许	
AnyType	This interface type is used in BTrace programs to tell that any reference type [object or array] is allowed in the place where it is used.	
Profiler.MBeanValueProvider	Helper interface to make accessing a Profiler as an MBean type safe.	

Clas	0		
1 12	C C	umn	narv
GIA.	33 0		nai v

Class	Class Summary	
BTraceUtils.Aggregations BTraceUtils.Atomic 原子类型工具类集合工具类 BTraceUtils.Collections 集合工具类 BTraceUtils.Counters BTraceUtils.D BTraceUtils.Profiling Profiling support. [问题或性能]分析支持! BTraceUtils.References BTraceUtils.Speculation BTraceUtils.Speculation BTraceUtils.Speculation BTraceUtils.Speculation BTraceUtils.Speculation BTraceUtils.Sys BTraceUtils.Sys(Memory) BTraceUtils.Sys(Memory) BTraceUtils.Time 分析器是一个高度专业化聚合的数据采集器,专门为高速的"应用执行调用关系材"数据收集数了优化 Profiler Profiler is a highly specialized aggregation-like data collector optimized for high-speed collection of the application execution call tree data. 记录表示"应用执行调用关系材"的一个原子单元 Record represents an atomic unit in the application execution call tree Profiler.Snapshot Snapshot is an immutable image of the current profiling data collected by the Profiler	Class	Description 所有功能于一身的BTrace DSL方法包装器
